PROFILE

Backend developer and Informatics Engineering graduate with internship and freelance experience in RESTful API design, database integration, and cloud deployment using Laravel, Express.js, MySQL, MongoDB, and Google Cloud Platform. AI enthusiast who wires LLMs and computer vision models into backend services; two peer-reviewed papers.

EDUCATION

Bachelor of Informatics Engineering, *Semarang State University (UNNES)* — 2022 – 2026 · Semarang

EXPERIENCE

Freelance Backend Developer, *PT Berlian Artha Label* — 08/2026 – 11/2026 · Freelance
- Built internal tools for a garment label maker: a KPI job desk system with weighted tasks and rule-based late scoring, job order and kontra bon document generators, and OCR label inspection against purchase orders.

Backend Developer Intern, *PT Ngupoyo Rejeki Lestari Mulya* — 02/2025 – 06/2025 · Semarang
- Developed and tested RESTful APIs for a face recognition-based attendance system using Express.js, MongoDB, and Postman, including user authentication, attendance records, image data handling, and database integration.

Cloud Computing Cohort, *Bangkit Academy MSIB* — 06/2024 – 11/2024 · WFH
- Completed cloud computing training in backend development and deployment on Google Cloud Platform, with hands-on work on Compute Engine, Cloud Run, App Engine, and Firestore.

PROJECTS

G Pos, *Food Cashier POS Web Application* — 2026 · Demo · Source
- Point of sale for food businesses: cashier shifts, discounts, VAT, rounding, and cash, QRIS, or debit payments, with owner and cashier roles, stock movement logs, expenses, and profit reports exported to PDF or CSV. Covered by 22 PHPUnit test files.
  Laravel 12, PHP, MySQL, Alpine.js, Tailwind CSS, Chart.js, Gemini API, PHPUnit

Telaah, *LLM research automation* — 2026 · Demo · Source
- Topic in, paper-comparison table out; code checks each LLM-filled cell against a verbatim quote (98.5% grounding).
  Python, Gemini API, OpenAlex, MCP, Streamlit, pytest, GitHub Actions

Travel Booking Engine, *Distributed systems (in progress)* — 2026 · Source
- Hotel aggregator that merges inventory from several suppliers into one search and runs the booking saga through to an e-voucher.
  Next.js, Express, PostgreSQL, Redis, RabbitMQ, Kafka, Jaeger, k6

Rep Counter, *Computer vision in the browser* — 2026 · Demo · Source
- Recognizes 22 exercises, counts reps, and flags bad form from a webcam, entirely in the browser; 0.822 macro-F1 on held-out videos.
  MediaPipe Pose, PyTorch, 1D-CNN, ONNX Runtime Web, Playwright

PUBLICATIONS

Optimasi Kinerja Klasifikasi Motif Batik pada Arsitektur MobileNetV2 melalui Strategi Fine-Tuning — 2026
G. K. A. Adviandito, M. I. Afif, A. L. Mahendra, M. A. Muslim. *Jurnal Ilmiah Wahana Pendidikan*, 12(6.D), 199–213. 99.85% accuracy. Link

Implementation of Xception Method for Early Detection of Plant Diseases — 2024
G. K. A. Adviandito, A. D. Widiantoro. *SISFORMA*, 11(2), 199–207. 97.63% validation accuracy on 54,305 leaf images. DOI

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Expert Staff — Hima Ilmu Komputer Unnes — 01/2023 – 12/2023 · Semarang
- Supported community programs and IT training: event preparation, participant coordination, and technical implementation.

Chief Executive — Ilkom Social Journey — 11/2023 · Magelang
- Led program planning, team coordination, and implementation of a community service activity.

SKILLS

Backend Development (Node.js, Express.js, PHP, Laravel, Flask, Prisma, RESTful APIs, JWT, Swagger), **Database & Messaging** (MySQL, PostgreSQL, MongoDB, Firestore, Redis, RabbitMQ, Kafka), **Cloud & DevOps** (Google Cloud Platform, Cloud Run, App Engine, Compute Engine, Docker, Grafana, Jaeger), **AI & Automation** (PyTorch, TensorFlow, ONNX Runtime, MediaPipe, OpenCV, LLM APIs, MCP, n8n), **Frontend** (HTML, CSS, React.js, Next.js, Tailwind CSS, Bootstrap), **Languages** (JavaScript, TypeScript, PHP, Python, Java), **Testing & Tools** (PHPUnit, pytest, Jest, Playwright, k6, Postman, Git, GitHub Actions), **Certifications** (Dicoding: Back-End Development with Google Cloud, Becoming a Google Cloud Engineer, Applying Machine Learning with Google Cloud, AI Fundamentals; HiColleagues: Python for Data Science)
